**Subject:** Thank You Prof. Ker

Dear Prof.Ker,

I am writing this e-mail as I realised that I should convey my gratitude to you.

I am working in the IO and ESD field...for the past 4 plus years. I must say that all through these years, you've been an invisible guru for me in ESD. Surely, all your publications have been a great reading reference for many of us who has not got the opportunity to have a mentor next desk.

Its indeed a great pleasure to get to know you more personally through this e-mail.

Thank You Prof.Ker for all your wonderful contributions. Thank You.

Thanks & Regards,

Sxxxxxxmar
